

Electronic Bill Payment

This service has a fee of \$3.00 per month for unlimited transactions. This service will allow members to pay their bills to various vendors when they are due; this can be a monthly bill or one time payment. The ease of going online to our website and selecting the link for bill payment and entering in your individual pin number will allow you to enter the bill payment program. Once in the program you will be able to set up the bills you want to pay by entering the Vendor's name and address, account number, amount to pay and the day they are to be paid. You can select whether you will be paying this vendor on a monthly basis or one time only. You will also be able to monitor when previously entered bills were paid.

This is the beginning of a program which will eventually offer complete online banking services to our members. This service will allow you to review your account with the credit union, make transfers from one type of account to another and view checks cleared on your share draft account. You will be able to print information that you see and read on your computer screen. This is a continuation of your credit union's effort to meet your needs today through technology.

If You've Got Questions . . . Alcose Credit Union Has The Answers!

What is Electronic Bill Payment?

Electronic Bill Payment (EBP) is a service that Alcose Credit Union offers to make it simple and convenient to pay your monthly bills. All you have to do is verify that the amount you have been billed is correct, and then schedule the payment via your personal or business computers and we'll do the rest!

Why Pay Bills Online?

Convenience, convenience, convenience. Your credit union's EBP features allow you to schedule recurring payments, pay anyone anytime. Stop sampling the taste of glue on those payment envelopes, cut down on trips to the post office, the cost of postage and more! Did we mention it's convenient?

When can I start?

Processing your Enrollment Form will take 5 to 7 business days. You will receive information including your Personal Security Code and EBP account number via US Mail. At that time, you can begin using EBP to make your payments!

How do I schedule a bill for payment?

Bills are scheduled for payment online at www.alcosecu.com. Once you've logged on, you simply enter the amount to be paid as well as the bill's due date.

The EBP service lets you schedule recurring payments such as mortgage and car payments, review bill payment history and maintain a payee

database. Adding a new payee is simple, and payment to new payees can begin immediately. All of the EBP features help to simplify the process of paying bills along with saving you time and money.

How can I be sure payments will be made on time?

We request that EBP users schedule bills for payment no less than 5 business days prior to the bill's due date. The payment will be sent immediately to ensure it's received on time. Payments to anyone anywhere may be scheduled as much as one year in advance of their payment date.

What account are the funds taken from?

You may use your Alcose Credit Union checking account as your source for EBP payments.

What does EBP cost?

Alcose Credit Union's EBP service is only \$3.00 a month for unlimited transactions. You may be able to pay your bills for less without the credit union's help, but if you're like most people, your time is worth the investment. It seems that stopping by the post office to pick up stamps, sitting down to write out a check for each bill, and remembering to drop them in the mail doesn't always fit into our busy lives. EBP through your Credit Union eliminates the hassle.

How will I be billed for EBP service?

Your EBP fee of \$3.00 per month will be automatically deducted from your source account and will appear on your monthly statement.
