DEBIT CARD ALERTS

Stay informed and Protected: Set Up Text Alerts for Your Debit Card

Did you know you can receive real-time text alerts every time your debit card is used? It's a quick and easy way to stay on top of your spending and protect your account from unauthorized transactions.

Why Set Up Text Alerts?

Text alerts help you monitor your debit card activity as it happens. You'll get a message each time a charge or debit posts to your card- whether it's a store, online, or even an ATM. It's a simple but powerful tool for keeping your finances safe and in your control.

See Something Suspicious? Take Action Fast.

If you receive an alert for a transaction you don't recognize, don't wait-log in to your account right away through our mobile app or website. You'll have the option to **freeze your debit card**, stopping any further transaction instantly while you investigate or contact us.

If you need help setting alerts or freezing your card, give us a call or stop by--we're happy to walk you through it.

Stay safe. Stay in control.

Set up your debit card alerts today!

SCAMS

Stay Alert: Scams Are on the Rise

Scammers are always coming up with new ways to trick people – by phone, email, text, or even social media. They often pretend to be from a trusted source, like a bank, government agency, or even a family member in need.

Protect yourself:

- Never share your personal or banking information with anyone who contacts you unexpectedly.
- Do not click suspicious links or download unknown attachments.
- If something feels off, it probably is – hang up or delete the message.

If you are ever unsure about a call, email, or text, **contact us directly**. We are here to help keep you and your accounts safe.
